

## FURNITURE REMOVAL TRUCKS ENTRY

Due to our streets being narrower than the normal streets and the traffic circles we need to implement restrictions on furniture removal trucks entering the Estate.

We shall only allow fixed bed removal trucks to enter the Estate and the tonnage be restricted to an absolute maximum of 10 tons/10.000 kilograms.

No mechanical horse and trailer will be allowed to enter the Estate, and should your furniture be delivered by such a vehicle, provision for a shuttle truck must be made. The mechanical horse and trailer will have to stay outside of the Estate and the shuttle will be used to take the furniture into the Estate.

Drivers of trucks must take utmost care not to damage the street curbing, trees, and fellow resident's property.

All neighbors should be informed, by yourselves, that the street will be closed for some time or that passing might be limited due to the unloading of the truck.

All removal staff must have the following: NO ID, NO ENTRY

- Identification Books
- Driver's License and/or
- Passport with a valid work permit

Everyone will have to check in at Security to gain access to the Estate.
